The German Budget.

Berlin 11.—During a discussion of the budget the Reichstag on Saturday Richter strongly denounced the protectionists. He declared the interdiction of the importation of pork was much less a sanitary than a protectionist measure. There is no doubt that the fate of the Biennial budget scheme is already sealed.

Railroad Racket.

Fortworth, 10.—A party of Vermont capitalists has undertaken to construct the Fortworth, and Rio Grand narrow gauge railroad if the city will contribute ground for terminal facilities.

New York, 11.—The latest news of the railroad conference is that the sub-committee will report no progress and ask a further adjournment till to-morrow.

Terrible Explosion.

Chicago, 11.—Inter-Ocean's Shawneetown, Illinois: A most dreadful accident occurred at the saw mill of J. Vincent & Son, at noon to-day. Eleven men employed about the mill were scattered about the engine room eating lunch, when the boiler exploded with extraordinary violence, completely wrecking the mill, distributing the iron plates of the boiler various distances, from a few feet to 600 yards, and immediately killing eight of the men and wounding the other three. One body was hurled into the river, and two more buried a distance of 200 yards. Several of the men were actually blown into mince meat and their friends subsequently went about with pails picking up undistinguishable fragments strewn about. The following are the names of those instantly killed: William Montgomery, Chas. Bloss, Henry Hughes, Chas. Baker, George Prentiss, W. P. Grove, James McLaughlin and Samuel Kennedy.

Another, Wade Kee, was blown to a considerable distance, both arms and both legs broken and otherwise injured; he died an hour afterwards. The remaining two men were badly hurt, one doubtless fatally. Several of the unfortunate men leave families in indigent circumstances. Cause of explosion not known.

XLVII. CONGRESS.

SECOND SESSION.

SENATE.

Washington, 11.—Pendleton's civil service bill was taken up, forty-four to sixteen, after an ineffectual attempt to lay it aside and take the Fitz John Porter bill. Logan objecting, it was temporarily shelved, to take up the bill to release the Memphis and Little Rock Railroad from obligation as a land grant road, to carry government troops free and mails at reduced rates, the release being claimed upon the ground that the company received only a small portion of the land granted it. The discussion was indefinitely postponed.

Hawley, from the civil service committee, reported with amendments his non-assessment bill, and said when the Pendleton bill comes up he will offer this as an additional section.

After the morning hour the bankrupt bill was considered, the question being on Brown's motion to postpone indefinitely. Lost, 34 to 26, and Hoar's bill was adopted as a substitute, 34 to 20, and sent to the committee indirectly for revision.

After executive session the Senate adjourned.

HOUSE.

Washington, 11.—Belmont, of New York, member of the committee on foreign affairs, presented his views on the Nicaragua Canal question. Ordered printed.

Townsend, of Illinois, offered a resolution reciting that it is alleged certain existing railway lines of transportation have entered into combinations for the purpose of preventing the construction of competing lines into the territories and through states, thereby establishing monopolies in transportation, and directing the committee on commerce to report without delay, a bill prohibiting and punishing such combinations.

Strait, of Minnesota, objected to present consideration, and it was referred to the committee of commerce.

Under the call of states, a number of bills were introduced and referred.

A bill was introduced by Waite, that no more silver be bought or dollars coined until the supply on hand is below \$50,000,000.

By Holman, asking the secretary to give details of land grants and patented lands to railroads.

By Anderson, construing the Pacific Railroad acts to provide that the companies shall pay the cost of surveying lands.

By Bingham, of Penn., a resolution inquiring what railroads added by the government, have failed to construct and maintain their own telegraph lines, or have leased their telegraph property to a telegraph company.

By Dibrell, of Tenn., to abolish internal revenue taxes and allow rebate on whisky and tobacco; also to reduce the specie in the treasury to \$150,000,000 by requiring the secretary of the treasury to pay out silver dollars for the current expenses of the government.

By Springer, of Illinois, proposing a constitutional amendment, relative to the election of President, Vice-President and members of Congress. It fixes the term of President and Vice-President at six years, and makes the President ineligible to election for the next succeeding term, abolishes the electoral college, and provides for direct vote for President. Every state shall be entitled to as many votes as it has senators and representatives in Congress, and the vote of each state shall be cast in proportion of the popular vote in the state for each candidate. The term of members of Congress is fixed at three years, and each session shall begin the first Wednesday in January. In counting the votes cast for President in joint convention, each senator and member shall have one vote.

The District of Columbia bill was then considered, and the Speaker announced a few appointments on committees.

On motion of Steel, of Indiana, a bill passed authorizing brevet commissions, to commissioned officers, for distinguished conduct in engagements against hostile Indians. Adjourned.

The Daddy Dollars.

Washington, 11.—Eastern members are determined to have the scalp of the silver dollars this time. They quote the report of Treasurer Gillilan, which shows that twenty-seven and a half per cent of the silver dollars coined since the creation of the daddy dollar, have ever been put in circulation; and the recommendation of the secretary of the treasury and President regarding that offensive member of an otherwise happy financial family. If, on the other hand, members from the south and west are inclined to stand by their pet, and think it has not been given a fair show, they will resist any efforts to retire the silver dollar and silver certificates, but it is not improbable a bill authorizing the treasury department to coin only the amount actually needed will pass.

Foreign.

Brussels, 11.—Testimony in the Bernay's murder case closed to-day. The American employers of Leon Peltzer say they have such faith in his innocence, they would gladly re-employ him.

Paris, 11.—The debate on the extraordinary budget began in the Chamber of Deputies. Girard, minister of finance, maintained that a deficit of 5,000,000 francs in the budget for 1883 was more apparent than real, since 100,000,000 francs has been devoted to the redemption of the public debt. He declared the deficit for '83 would not reach 1,000,000 francs. The Chamber will not sit to-morrow on account of the funeral of Louis Blanc.

Gambetta left his bed to-day.

Dublin, 11.—The full court of the land commission, on appeal, confirmed the decree of Commissioner Lytton on the test case, affecting 1,200 tenants on the estate of Sir John Leslie, County Monaghan. The question was concerning the interpretation of the hanging gate clause of the arrears of rent act, decide indirectly in tenant's favor.

Cairo, 11.—It is expected a decree will be issued in a few days, degrading Arabi and other condemned pashas, and ordering the confiscation of their property.

Berlin, 11.—The Reichstag, by a decided majority, rejected the motion to refer portions of the budget 1884-1885 to the budget committee. The House also rejected a motion to refer the budget for 1883-1884 and 1884-1885 to the budget committee for the purpose of having the committee consider whether objections to the system of biennial budgets have a solid foundation. It was finally decided the committee should only discuss certain portions of the budget for 1883-1884.

The Prussian delegation in the Bundesrath submitted a motion providing for an increased duty on new lumber to fifteen pfennigs, and on wrought lumber to twenty-five pfennigs per 100 weight.

The court of appeal has confirmed the decision restraining the land corporation of Ireland from paying a dividend on shares, out of the capital raised by issuing shares. A decision is expected soon, and will have a serious effect on Kavanagh's scheme for counteracting the objects of the Land League.
